Coaching Education

SJSL and SJGSL have combined to offer a new Coaching Education course specific to the South Jersey leagues. New coaches, who do not yet hold a coaching license or certificate, can now take a course geared specifically for our league and our coaches. The new Level One course will satisfy the NJ Little League Law statutory requirements and will include a discussion of league specific rules and provide individual skills/technique instruction. The latter two topics were expressly requested by our membership.

Courses for July and August are now posted on both league websites. There is a 3 hr classroom and a 6 hr field session component to obtain your certificate. You have a choice of 4 locations and different dates for each component. You must take the classroom portion before the field session. Registration is online on the league websites and for July/August, the courses will be FREE!

Existing Coaches?

Both SJSL and SJGSL require all coaches, assistant coaches, trainers, managers and other individuals carded to be on the staff/team sidelines to hold a valid coaching license/certificate. Individuals holding a current, valid NJYS state F or E license or a USSF license along with the Rutgers Safety Course certificate will be grandfathered in and accepted. To verify that all individuals hold the necessary licenses, all coaches in both leagues must upload a pdf copy of their license/certificate through a common google form link (found on both league websites). If you coach in both leagues, you only need to upload one copy.

Please remember to use a valid email address when completing the form. If the form requests you to sign in (which has happened a couple of times), you have the option of creating a google account (which takes a couple of seconds), or reach out to Austin (registrar@sjgsl.org) for a generic sign in information, that again works for both leagues.

Classroom			Location
Friday	July 13 th	6:30-9:30pm	RVSC, Hainesport Community St Center, 217 Broad St., Hainesport

Heroes Foundation of NJ

The Heroes Foundation of NJ is a nonprofit corporation whose mission is to provide the necessary tools and education to our communities in an effort to combat the loss of life through sudden cardiac arrest.

The foundation has three basic goals:

To promote awareness of sudden cardiac arrest. To encourage people to take action and take care of themselves for a better quality life.

To raise funds and donate AEDs and CPR training to local community sport complexes, so that in an event such as the one experienced with Pepi Dragotta, (and most recently Craig Orr) lifesaving help can be administered immediately.

To remember the people who were instrumental in saving Pepi's life, the Heroes Foundation has a scholarship program for two students graduating from CCTEC to further a career in the healthcare field. By doing this, the memory and cause lives on.
